ADDITIONAL SERVICES:

Claims – With decades of experience in managing education claims, our highly experienced claims team is prepared to respond quickly and support the unique needs of our clients. Our claims professionals will be actively involved in both oversight and settlement of all claims. We understand it is crucial that the claims response be prompt, professional, and compassionate. We have expertise and experience handling education claims and have relationships with defense counsels who are best able to handle this sensitive type of litigation. Our goal is to provide outstanding service while achieving the best possible claims outcome for all parties.

Risk Control – Managing exposure is an integral component to our underwriting and account service process. Our Risk Control team works closely with both our underwriters and insureds to incorporate a risk management plan to help minimize future losses. The objective of this value-added service is to help reduce losses, which can potentially reduce premium over time.
